

**Broad product range.
High level of product & service.
Value.**

**No wonder that leading
companies worldwide
rely on Habasit**

Features and benefits of selected product ranges

RC-Line feeder belts
Grabber® feeder belts

Flexfold® folder-gluer belts

*New generation:
improved quality,
longer lifetime,
more value*

Folder-Gluer Machine

Remark
These schematic drawings show several typical applications. Of course, Habasit products are also suitable for a large variety of further applications. The drawings do not lay claim to completeness. The belt recommendations can only be considered as general suggestions. Due to the complexity of the various technical requirements and the decisive external influences (e.g. minimum diameters, quality of paper and cardboard) there is a large variety of possible solutions. It is impossible to mention all suitable belt types for each application. It is also possible that another Habasit product which is not mentioned in this brochure can meet your requirements. Please ask your local Habasit representation.

Feature	Benefit	Feature	Benefit
<ul style="list-style-type: none"> A wide range of various surface types Different shore hardnesses Different coefficients of friction Seamless belt construction available 	<ul style="list-style-type: none"> The right feeder belt for each application Gentle and reliable treatment and no marking of goods 	<ul style="list-style-type: none"> Simple and fast adhesive-free joining method 	<ul style="list-style-type: none"> Easy handling Minimum equipments needed Short machine downtimes
<ul style="list-style-type: none"> Cover has excellent abrasion resistance Constant coefficient of friction during the whole lifetime of the belt 	<ul style="list-style-type: none"> Conveying of abrasive goods is possible No maintenance required Longer belt life 	<ul style="list-style-type: none"> Uniform longitudinal flexibility thanks to adhesive-free joining system 	<ul style="list-style-type: none"> Belt can handle small pulley diameters, compact design, Lower costs Long belt life
<ul style="list-style-type: none"> A wide range of various traction-layer materials and profiles Seamless substrate components available Tight belt length tolerances 	<ul style="list-style-type: none"> The appropriate strength for each application The appropriate traction layer or profile for each application 	<ul style="list-style-type: none"> NBR-rubber cover Excellent abrasion resistance Constant coefficient of friction, reliable conveying properties 	<ul style="list-style-type: none"> Gentle treatment of goods No marking Long belt life
<ul style="list-style-type: none"> Stable modulus of elasticity after running-in 	<ul style="list-style-type: none"> Dimensional stability No re-tensioning, no downtimes 	<ul style="list-style-type: none"> Low sensitivity to humidity 	<ul style="list-style-type: none"> High dimensional stability No re-tensioning, no downtimes
<ul style="list-style-type: none"> Permanently antistatic 	<ul style="list-style-type: none"> Less dust and dirt attraction Process reliability Low maintenance cost 	<ul style="list-style-type: none"> Stable modulus of elasticity after running-in 	<ul style="list-style-type: none"> High dimensional stability No re-tensioning, no downtimes
<ul style="list-style-type: none"> Custom holes, slots and grooves available 	<ul style="list-style-type: none"> Application as vacuum feeder belt 	<ul style="list-style-type: none"> Permanently antistatic 	<ul style="list-style-type: none"> Less dust and dirt attraction Process reliability Low maintenance cost

Habasit – the competent partner of worldwide presence

Application brochure

Innovation in paper converting

Habasit feeder belts, folder-gluer belts and conveyor belts for folder-gluer machines

Habasit has been certified according to the ISO 9001/EN 29001 quality standards since 1987.

This, and its many years of experience, guarantee to the customer that Habasit products are of first-rate quality.

Thanks to Habasit's worldwide network of affiliates and representations, the products are available in the same quality worldwide. This includes, of course, all services.

Habasit – the leading belt supplier for the printing and paper industry.

The many original equipment manufacturers who have opted for Habasit as original supplier may rest assured that their customers will receive the specified products in the same high quality all over the world.

Habasit products are specified and installed on almost all types of machines; examples:

- Corrugated cardboard production line
- Die-cutting machine
- Envelope production line
- Folder-gluer machine
- Gatherer/binder
- Newspaper production line (printing and mailroom equipment)
- Pad production line
- Rotary offset printing machine
- Rotary rotogravure printing machine
- Sheet folding machine
- Sheeter/crosscutter
- Stacker
- Tissue production line
- Tubewinder
- Web fed offset printing machine

New generation of S- and CM-folder-gluer belts available
